SRIDHAR
SENTHILNATHAN

FRONTEND DEVELOPER

OBJECTIVE

Motivated frontend developer with a background in web design and a commitment to delivering high-quality user interfaces. Seeking to join a forward-thinking company where I can apply my skills in responsive design and accessibility to create engaging web applications.

PROJECTS

PORTFOLIO WEBSITE

April 2024 - Present

Developed a personal portfolio website using HTML, CSS, JavaScript and React to showcase my skills and projects. Implemented responsive design principles to ensure compatibility across devices

E-COMMERCE WEB APP

May 2024 – July 2024

Designed and developed an E-commerce web application independently. Created wireframes and prototypes using Figma implemented the frontend using React, showcasing skills and responsive design and functionality.

TASK MANAGER APP

August 2024 - Present

Developed a task manager application independently to help users organize and prioritize their tasks. Designed user interfaces using Figma and implemented the front end with React, featuring functionalities like task creation, editing, and deletion, along with real-time updates. Ensured a responsive design for optimal user experience across devices.
